## FAIR OAKS BRIDGE REHABILITATION

# ENVIRONMENTAL REVIEW PROCESS

The bridge rehabilitation work triggers required reporting under both the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA). CEQA is a statute that requires state and local agencies to identify the significant environmental impacts of their actions and, if feasible, to avoid or mitigate those impacts. NEPA is the federal equivalent to CEQA and is required for projects with federal funding, permits, or approvals. Both CEQA and NEPA establish specific steps in the process, including public involvement and review as described below.

### SCOPING PERIOD

- Scoping Meeting
- 30 day public and agency review period
- Comments accepted through May 22, 2013

### DRAFT ENVIRONMENTAL IMPACT REPORT (EIR)

The draft EIR will describe:

- Proposed project alternatives
- Existing environmental conditions
- Impacts from construction and operation of each proposed alternative
- Mitigation measures to reduce or eliminate these impacts

This information will enable decision-makers, interested parties, and the public to evaluate the proposed alternatives and their environmental effects.

### DRAFT ENVIRONMENTAL REVIEW

The draft EIR will be released in its entirety for public review and comment before being finalized. The review period will be 45 days.

A public meeting will be held during the review period to obtain additional comments.

### FINAL ENVIRONMENTAL DOCUMENT

The final EIR will consist of:

- Revisions to address public comments
- Comments and recommendations received on the draft EIR
- Responses to significant environmental points raised in the review and consultation process

### TIMELINE

#### MAY 2013

- Project Scoping Meeting on May 9

#### SPRING/FALL 2013

- Preliminary Project Design/ Environmental Studies

#### SPRING 2014

- Release of Draft EIR
- Public Review Period

#### SUMMER 2014

- Final EIR

**NOTE:** The environmental review process provides several opportunities for public involvement. The City of Sunnyvale has supplemented the public involvement activities required by CEQA with additional public meetings and workshops.
